ALESAYI HOLDING

REAL ESTATE SECTOR

Alesayi Holding has been one of the leading companies in Saudi Arabia's real estate sector since 1992. With a focus on innovation and sustainable development, the Group has contributed to a diverse portfolio of projects, including land and real estate development, hospitality services, and asset management. Through its expertise, wide range of services, and implementing multi-use and megaprojects, the Group has continued contributing to the Kingdom's economic growth.

At AQARAT, we transform untouched land into spaces that breathe life, connection, and opportunity. We aren't just developing land; we're crafting the foundation of future communities, with a dedication to innovation, sustainability, partnership, and excellence guiding us through every square meter we shape.

Our journey starts with Innovation. Raw land is a blank canvas, and we see limitless potential in every plot. Driven by creativity, we envision not only what the land can become today but what it can mean for future generations. Through unique layouts, efficient infrastructure planning, and sustainable design, we bring forth new ideas to meet the needs of both people and the environment, building more than space

WE BUILD POSSIBILITIES

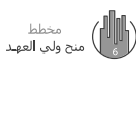

OUR PROJECTS

Next comes our commitment to Sustainability. As stewards of the land, we feel a profound responsibility to protect and nurture it. For us, developing land means more than constructing roads and infrastructure; it's about harmonizing with nature. From preserving natural landscapes to incorporating green spaces and eco-friendly practices, every project is a promise to balance present needs with a sustainable future, fostering a legacy of environmental respect and enhancing the quality of life in harmony with Vision 2030.

+200 MLN SQM LAND DEVOLPED

At the core of it all is our pursuit of Quality and Excellence. For us, each tract of land is a chance to establish a new standard. From the first survey to the final development phase, we hold ourselves to the highest quality, ensuring every step reflects precision and purpose. This commitment to excellence ensures that the communities we build are strong, vibrant, and ready to stand the test of time.

As we journey onward, AQARAT continues to look beyond the present, transforming raw landscapes into flourishing communities. Each project is a story of innovation, a commitment to sustainability, a promise of partnership, and a testament to excellence. We are honored to be part of the land's story, shaping spaces where communities can grow, thrive, and dream of a bright future.

At SaudiRedCo, real estate is about forging meaningful connections among people, places, and experiences. As place-makers and storytellers, we curate environments filled with possibility and innovation, transforming spaces into immersive stories that are visited, lived, and shared.

We seamlessly integrate physical and digital realms to enhance human experiences, ensuring our spaces are intuitive, accessible, and responsive to individual needs. We design adaptable, multifunctional spaces that evolve with communities over time, allowing for fluid use in a world of constant change.

With community at the core, we engage stakeholders to co-create inclusive, vibrant environments that reflect collective aspirations and foster a strong sense of belonging. Acting as platform architects, we curate ecosystems of services, partnerships, and amenities, enhancing value for our customers and creating holistic living experiences.
